Sara –

I spoke to George Pitt from the Flock Safety billing team today. Their data showed the cameras were installed in 2022, which is clearly wrong. I updated him, he said to ignore all bills until they get this worked out.

FYI.

Dan

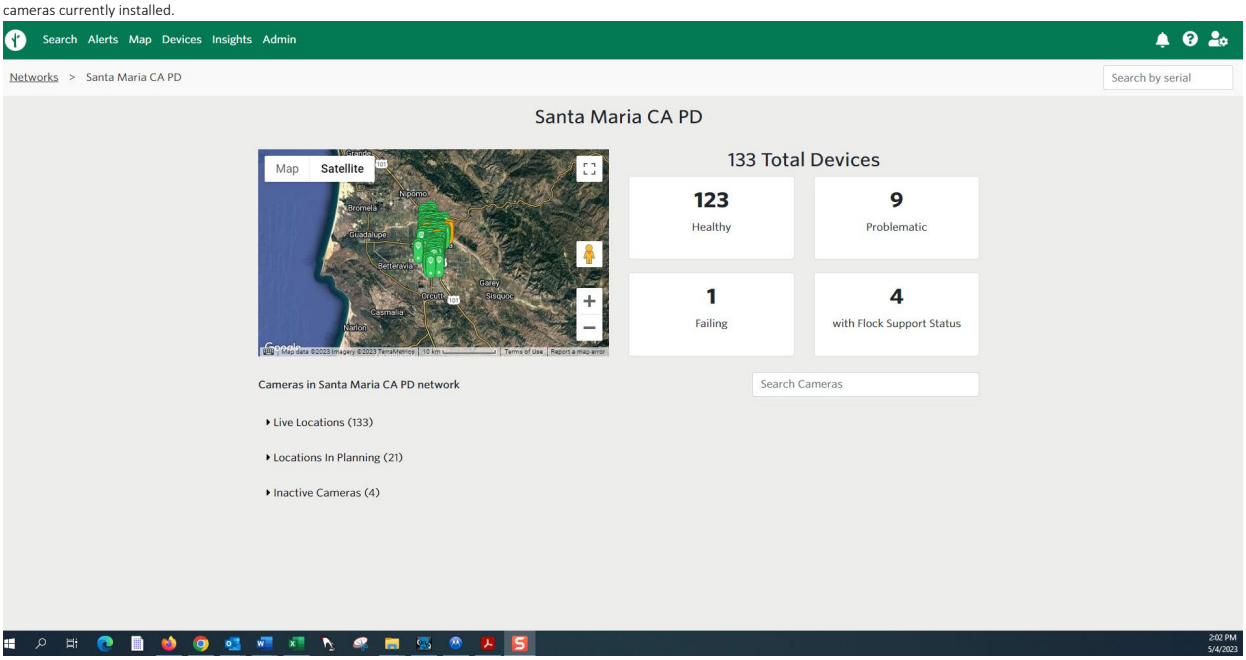
Commander Cohen,
Phase 1 of the Flock installation was for 31 cameras. Those cameras have not all been installed yet. 11 cameras are still in the planning/permitting phase.

Phase 2 of the Flock installation was for 104 cameras. Those cameras have not all been installed yet. 8 cameras are still in the planning/permitting phase.

Looking at our Flock web site for "Devices", no matter how I tally up the numbers I don't come up with 135, but we're close to that number if you count Phase 1, Phase 2 and Housing Authority cameras currently installed.



In the listing that Jodi provided below, there ARE 104 cameras listed, however, Camera "065 EB Stowell (west of Entrada) EB Taylor (east of Curryer)" appears to be a merging of two cameras. But since there is a second listing for "Camera "065 EB Stowell (west of Entrada)" and no listing for "067 EB Taylor (east of Curryer)" the count of 104 is correct. (See attached spreadsheet)

Within that listing, the following cameras are STILL in the planning/permitting phase: 036, 057, 083, 085, 087, 088, 090, 092.

As far as the Advanced Search features, "Convoy Search" and "Multi-Geo" search have both worked in testing however without other filters, the Convoy search returns way too many hits to be of use (given the number of cameras we have).
The Advanced Search "Visual Search" has been a complete failure in testing.

Let me know if you need further info.

Steve –

Can you confirm that all 135 Flock Cameras have been installed?

Thank you,

Dan
